

To reflect and... act.

The difference between the
poor and rich nations is not
the age of the Nation.

This can be demonstrated by
countries like India and
Egypt, which are more than
2000 years old and are still
poor countries.

On the other hand,
Canada, Australia and New
Zealand, which 150 years
back were insignificant,
today are developed and
rich countries.

The difference between the
poor and rich nation does
not also depend on the
available natural resources.

Japan has limited territory, 80% mountainous, unsuitable for agriculture or farming, but is the second in worlds economy. The country is like an immense floating factory, importing raw material from the whole world and exporting manufactured products.

Second example is **Switzerland**, it does not grow cocoa but produces the best chocolates in the world. In her small territory she rears animals and cultivates the land only for four month in a year, nevertheless manufactures the best milk products. A small country which is an image of security which has made it the strongest world bank.

Executives from rich countries who interact with their counterparts from poor countries show no significant intellectual differences.

The background of the slide features a warm, orange-toned sunset sky over a body of water. In the foreground, two hands are shown in a firm handshake, rendered in a stylized green color. The text is overlaid on this background in a white, bold, sans-serif font with a subtle drop shadow.

The racial or colour factors
also do not evince
importance: migrants heavy
in laziness in their country of
origin are forcefully
productive in rich European
countries.

What then is the difference?

The difference is the **attitude**
of the people, moulded for
many years by education and
culture.

When we analyse the conduct of the people from the rich and developed countries, it is observed that a majority abide by the following principles of life:

1. Ethics, as basic principles.
2. Integrity.
3. Responsibility.
4. The respect for Laws and Regulations.
5. The respect from majority of citizens by right.
6. The love for work.
7. The effort to save and invest.
8. The will to be productive.
9. Punctuality.

In the poor countries a
small minority follow these
basic principles in their
daily life.

We are not poor because
we lack natural resources or
because nature was cruel
towards us.

We are poor because we lack attitude. We lack the will to follow and teach these principles of working of rich and developed societies.

**WE ARE IN THIS STATE BECAUSE
WE WANT TO TAKE ADVANTAGE OVER
EVERYTHING AND EVERYONE.**

**WE ARE IN THIS STATE BECAUSE
WE SEE SOMETHING DONE WRONG
AND SAY - "LET IT BE"**

**WE SHOULD HAVE A SPIRITED MEMORY
AND ATTITUDE...**

**ONLY THEN WILL WE BE ABLE TO CHANGE OUR
PRESENT STATE.**

The background of the slide features a stylized illustration of two hands, one green and one light green, shaking in a firm grip. This graphic is set against a warm, orange-toned background that resembles a sunset or sunrise over a body of water, with soft, wavy lines representing the water's surface.

If you do not forward this e-mail
nothing is going to happen to
you. Your prized animal is not
going to die, you wont be sacked
from your job, you wont be
having bad luck for seven years,
nor are you going to get sick.

But, if you love your

COUNTRY

Try and circulate this
message so that as many
people can reflect on this
and **CHANGE.**

Think about it...
